A FRAMEWORK FOR SPECIALISTS COMPONENTS

	Component 1	
	Component 1 Planning and Preparation	Component 2 Professional Practice and Delivery of Service
1a.	Designing Coherent Programs or Services Aligned	2a. Creating an Environment to Support
1a.	with State and National Standards	Student or Client Needs
	 Establishes goals for the program based on National 	• Interacts with students and stakeholders
	• Establishes goals for the program based on National Standards/Model	 Interacts with students and stakenolders Students interact with other students and
	 Plans services or activities 	Sudents interact with other students and clients
	 Selects instructional resources that support the 	
	• Selects instructional resources that support the services/activities	2b. Demonstrating Flexibility and
	• Identifies the needs to the group to be served	Responsiveness
1b.	Demonstrating Knowledge of Best Practice and/or	• Responds to the needs of the students
10.	Models of Delivery	• Responds to events within and beyond the school and district
	• Knowledge of program content and structure	• Responds to the needs of the stakeholders
	 Knowledge of content and how to apply it within settings 	
1c.	Demonstrating Knowledge of Students and/or Clients	2c. Communicating Clearly and Accurately • Establishes the importance of the program
10.	Knowledge of child and adolescent development	 Use of written and oral language
	 Knowledge of adult learners 	 Directions and procedure
	 Knowledge of the learning process 	
	 Knowledge of cultural diversity 	2d. Delivery of Services to Students or
14	• Knowledge of cultural diversity Demonstrating Knowledge of Resources	Clients
1 u .	 <i>Resources, both within and beyond the school and district</i> 	Organizes physical space to support delivery Manager paytings and proceedings
	•	Manages routines and procedures
	• Knowledge of how to access resources needed within and beyond the district	Establishes standards of conduct
	• Knowledge of what resources will extend understanding of	Focuses on implementation of the program based on National Standards/Model
	• Knowledge of what resources will extend understanding of the program	basea on National Standards/Model
10	Demonstrating Knowledge of How to Design or Use	
10.	Student Assessments	
	Selects appropriate assessment tools	
	 Selects appropriate assessment tools Uses assessment information in planning 	
	Component 3	Component 4
	Consultation and Collaboration	Professional Responsibilities
3a.	Collaborating with Others	
		4a. Communicating with Families/Clients
-	0	4a. Communicating with Families/Clients • Provides information about the program
	• Participates in school or district meetings to identify needs of	• Provides information about the program
-	• Participates in school or district meetings to identify needs of students and/or clients	 Provides information about the program Provides information about students, as
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting 	 Provides information about the program Provides information about students, as appropriate under the program's National
3b.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner
3b.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required
	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally
3b.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through
3b.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access Provides resources to enhance the program's effectiveness 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through professional development opportunities
3b.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access Is accessible to others and assures access to services for stakeholders 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through professional development opportunities Participates in the professional community
3b. 3c.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access Is accessible to others and assures access to services for stakeholders Maintaining Professional Standards 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through professional development opportunities Participates in state/national organization(s)
3b. 3c.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access Is accessible to others and assures access to services for stakeholders Applies professional Standards when working with others 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through professional development opportunities Participates in state/national organization(s) 4d. Reflecting on Professional Practice
3b. 3c. 3d.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access Is accessible to others and assures access to services for stakeholders Applies professional Standards when working with others Follows appropriate guidelines and procedures 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through professional development opportunities Participates in the professional organization(s) 4d. Reflecting on Professional Practice Accuracy
3b. 3c.	 Participates in school or district meetings to identify needs of students and/or clients Shares expertise within and beyond the school/district setting Serving as a Consultant to the School Community Locates resources to support the needs of students/stakeholders Evaluates student/client and program needs as outlined by National Standards/Model Uses appropriate interventions for student/clients as outlined by National Standards/Model Provides training related to the program Providing Resources and Access Is accessible to others and assures access to services for stakeholders Applies professional standards when working with others Follows appropriate guidelines and procedures Using Assessment Data in Planning and Delivery of 	 Provides information about the program Provides information about students, as appropriate under the program's National Standards Engages the family in the program, as applicable 4b. Recording Data in a Student Record System Maintains accurate records Provides records in a timely manner Maintains confidentiality as required 4c. Growing and Developing Professionally Enhances knowledge of the program through professional development opportunities Participates in state/national organization(s) 4d. Reflecting on Professional Practice
